## TRAINING FOR RESILIENCE & SUCCESS

At TrainingAir, we believe pilots deserve the best training to prepare them for real-world airline operations. As an ATO run by pilots, for pilots, we specialise in delivering Type Rating and Instructor Training Courses on the Airbus A320, A330, A340, A350, and Boeing B737.

### ONLY THE BEST IS GOOD ENOUGH

- **Quality Hardware** – We provide you with iPads loaded with the full suite of Airbus apps - ensuring you train just as airline pilots do.
- **Quality Software** – Gain Access to the full Airbus FlySmart suite, professional flight plans & charts, VR Flow trainer, and the FMGC trainer, all designed to enhance your learning/training and prepare you for real-world airline operations.

### LEARN FROM AIRLINE PILOTS

- **Real-World Knowledge** – All our instructors who fly for major airlines worldwide have been carefully selected, rigorously trained, and are committed to excellence.
- **More Than Just a Type Rating** – Our Type Rating doesn't just teach you how the aircraft works - it teaches you how to be resilient and competent in real airline operations.

### WE HELP YOU TAKE OFF

- **Base Training & Line Flying Assistance** – Fully backed by airline partnerships.
- **Strong Recommendation Pathways** – 95% of our graduates secure jobs within 3 months.

### FLEXIBLE & HIGH VALUE TRAINING

- **Flexible Training Schedules** – Choose from pre-booked course timelines or let us work with you to find a suitable schedule across our various locations. We'll do our best to accommodate your needs and ensure your training fits seamlessly into your timeline.
- **Premium Training, Competitive Pricing** – No unnecessary admin, just top-tier instruction to ensure you're fully prepared for your airline career. You're investing in the best training for long-term success.
